INTRODUCTION

Thank you for purchasing a Georgie Boy™ Recreational Vehicle. With your new Recreational Vehicle purchase, Georgie Boy provides a one-year Limited Base Warranty and a two-year Limited Structural Warranty. Also, many of our component suppliers offer warranties that extend beyond Georgie Boy's warranty coverage. In this guide you will find our Base and Structural Warranties along with a summary of the many component manufacturer warranties available to you. THE COMPONENT WARRANTY SUMMARIES ARE NOT INTENDED TO REPLACE THE COMPONENT WARRANTY DOCUMENTS PROVIDED WITH YOUR PURCHASE. Please refer to the original warranty documents when coverage questions arise. PLEASE REVIEW YOUR OWNER'S MANUAL FOR QUESTIONS REGARDING THE OPERATION OF YOUR RV.

However, you are not required to use the program if you choose to pursue claims not governed by those laws.

GEORGIE BOY LIMITED WARRANTY

Scope

The Georgie Boy Limited Warranty applies only to new recreational vehicles placed in service or sold by an authorized Georgie Boy™ dealer (“dealer”) for one-year from either the in-service date, original retail purchase date, or the first 15,000 miles of total use (“Warranty Period”) whichever occurs first. For the purposes of the warranty, “new recreational vehicle” does not include units used as demonstrator units (demos), used for commercial purposes, or any other “distressed” units of any kind (i.e. not purchased as new or sold as new by an authorized dealer) including; but, not limited to: units purchased from unauthorized dealers, through auction, through banks or financial institutions, units sold to the dealer “AS IS” with no warranty, or units used for promotional purposes. **Be sure you read and understand this Limited Warranty.** This Limited Warranty is transferable to a subsequent owner for the duration of the original period with proper application to Georgie Boy and a \$95 processing fee. Original owners must be properly registered with Georgie Boy within thirty (30) days of the first day of the Warranty Period to be considered for eligibility.

Coverage

“Recreational Vehicle” (“RV”) means all portions of the product which are used or primarily maintained as a recreational vehicle and is not intended, nor manufactured, as a permanent residence, and excludes any components that are typically found in an automobile except the “Installed Portions”, which are those portions of the motorized product (if applicable) which were installed or attached to the chassis by Georgie Boy. These RV portions, which may also be described as “living facilities” include; but, are not limited to: the plumbing system, LP system, electrical systems unrelated to the propulsion of the vehicle, seals, flooring, cabinetry and other constructed wood components, and interior and exterior items designed and manufactured by Georgie Boy Manufacturing. In the event of a defect covered by this Limited Warranty, Georgie Boy at its sole discretion, reserves the right to substitute parts or components of substantially equal quality, repair the warrantable defect, or provide other such relief as deemed appropriate as the exclusive remedy under this Limited Warranty.

UNIT WEIGHT INFORMATION SHEET

MOTORIZED UNIT WEIGHT INFORMATION SHEET (MM/DD/YY)

Georgie Boy™ motorhomes are designed to allow for a wide variety of uses from extended trips with two people to short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo load and towed vehicle without exceeding the chassis weight capabilities.

Seat belts are required to be worn in most states, and should always be used for passenger safety. Seat belts have been provided at most seating locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with seat belts may be occupied while the vehicle is in motion, without regard to other weight factors.

As the owner, you bear the responsibility to properly load your vehicle without exceeding the chassis/frame weight capabilities. The total weight and distribution of that weight are important safety considerations in the operation of your unit. For your convenience, Georgie Boy provides a unit weight information sheet in each recreational vehicle manufactured. In the center of this page is a sample of the Unit Weight Information Sheet for a motorhome. Please be responsible in loading your recreational vehicle and do not exceed the net carrying capacity of your vehicle. We recommend that you have your loaded vehicle weighed prior to leaving on a trip in order to assure that you have not exceeded your maximum carrying capacity. You may check the Yellow Pages for the address and telephone number of the nearest weighing facility (grain elevator, sand and gravel dealer or government weighing station).
